

# U.S. 52 PROJECT MAP

Winston-Salem, North Carolina

Sunday, March 11 — Saturday, March 17

## What will the closure involve?

- The N.C. Department of Transportation needs to close varying lanes on U.S. 52 North to connect the existing roadway to the newly constructed bridge over Liberty Street in Winston-Salem.
- In addition to closing varying lanes, NCDOT will also close:

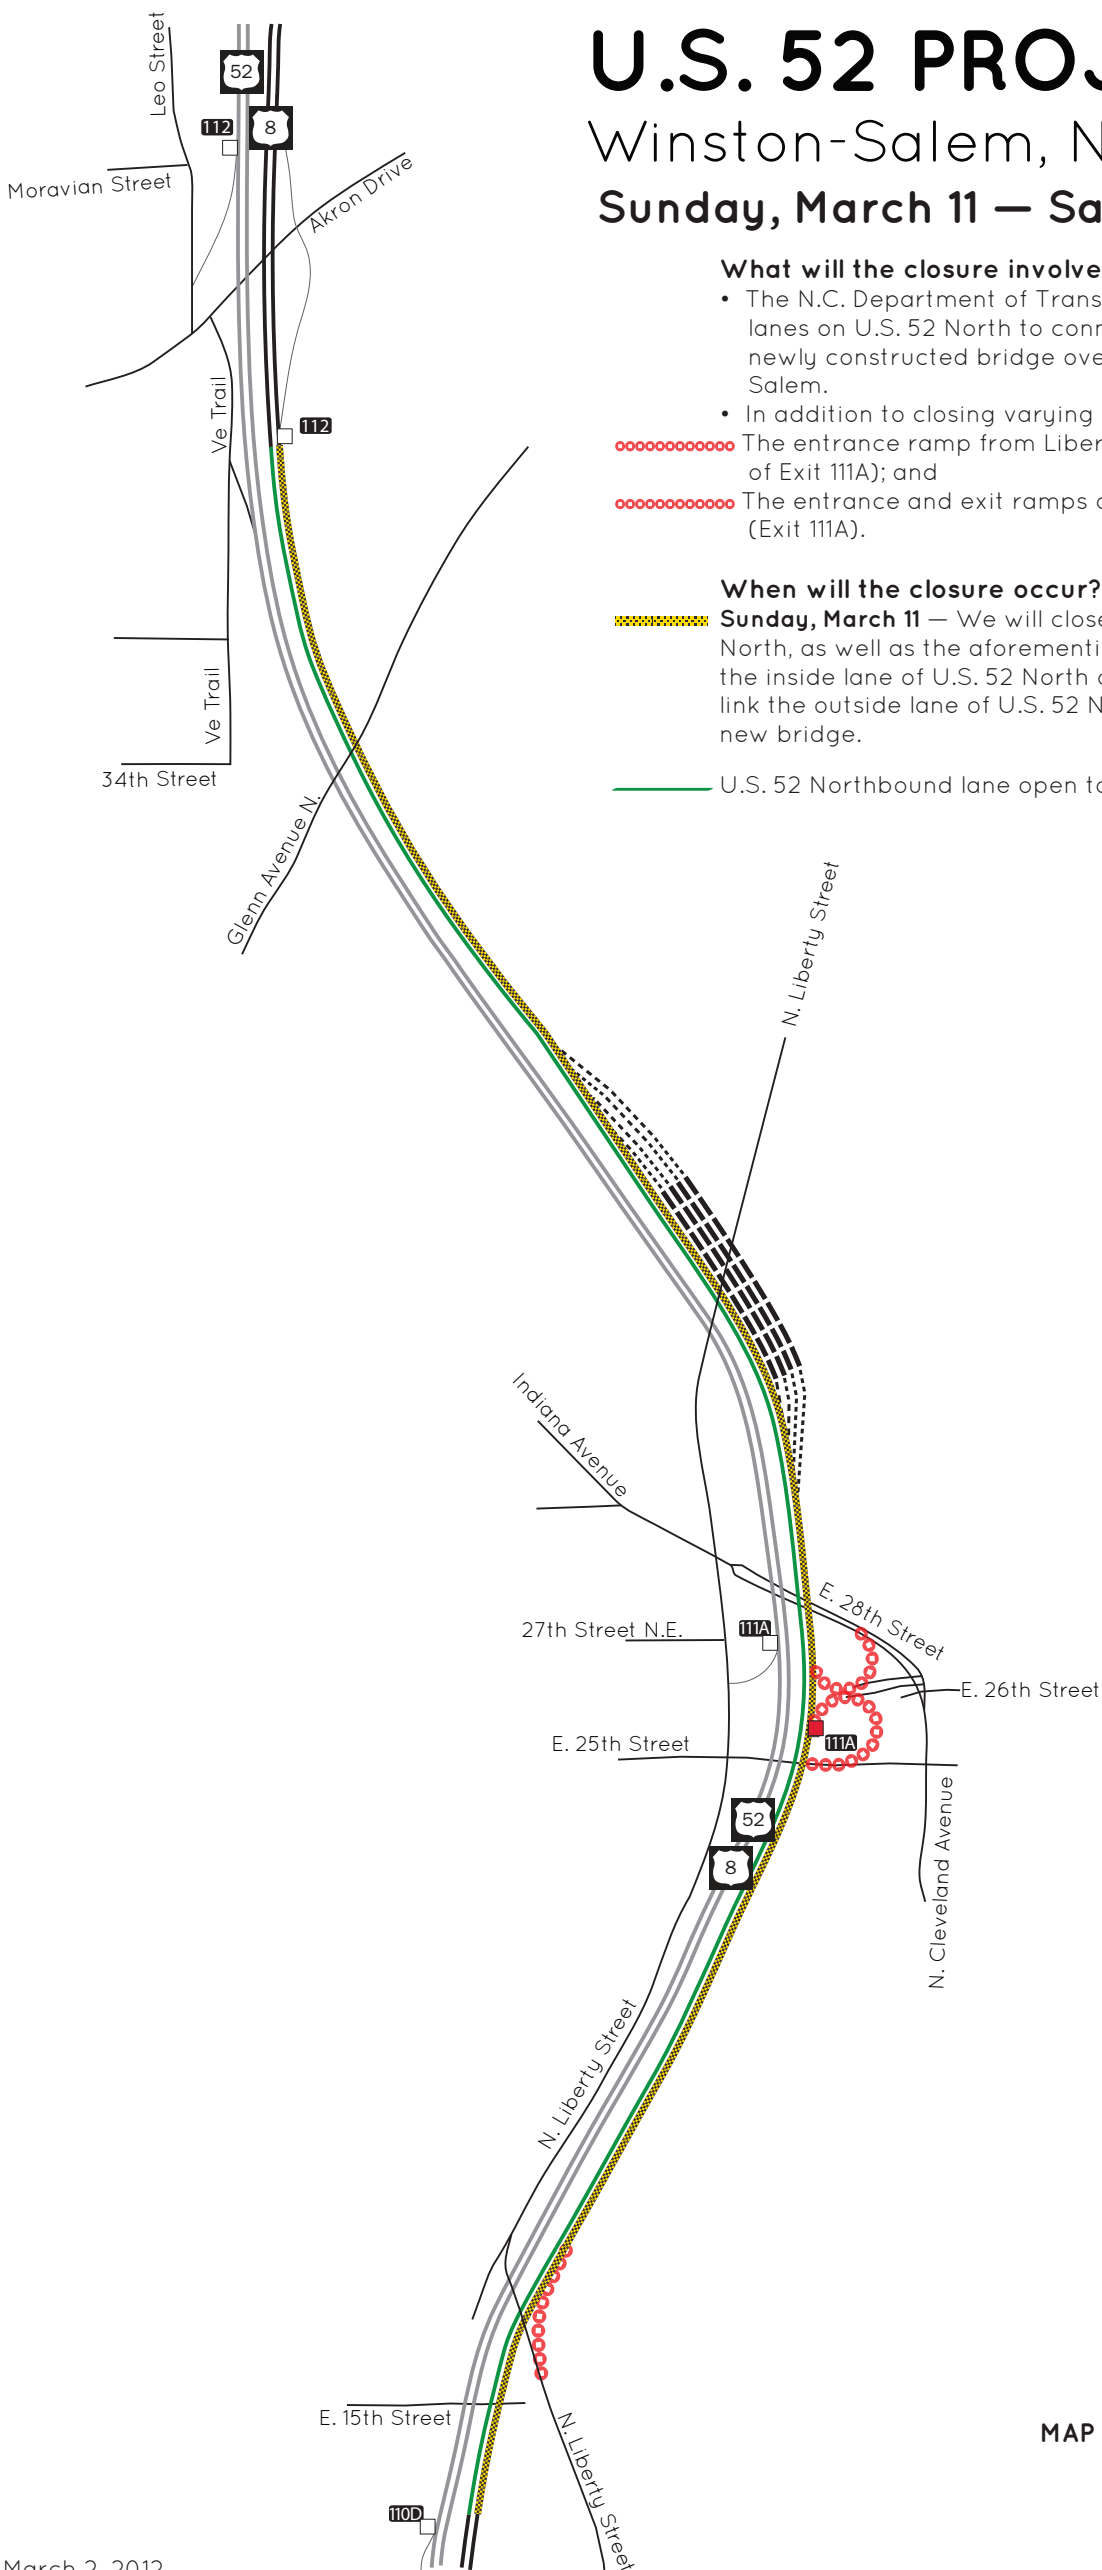

oooooooooooo The entrance ramp from Liberty Street to U.S. 52 North (south of Exit 111A); and

oooooooooooo The entrance and exit ramps on U.S. 52 North at 25th Street (Exit 111A).

## When will the closure occur?

■■■■■■■■■■ **Sunday, March 11** — We will close the outside lane of U.S. 52 North, as well as the aforementioned ramps. Traffic will flow on the inside lane of U.S. 52 North only. This pattern will allow us to link the outside lane of U.S. 52 North to the outside lanes of the new bridge.
